URSULINE...

*prepared me for the
real world*

REBECCA WRENN *class of 2012*

Account Executive, Sweeney PR

My English degree and the education I received at Ursuline College created a holistic foundation both academically and professionally. My degree provided countless opportunities to explore an array of careers including journalism through an internship with a local network news station (WKYC). I continue to use my undergraduate education everyday as a marketing and public relations professional and as a graduate student.
