Human Anatomy and Physiology II Test Out Study Guide Ursuline College Biology Department

Test out is not based on a particular textbook. A thorough, comprehensive text of human anatomy and physiology would suffice. Suggested text books include:

- Marieb and Hoehn. Human Anatomy & Physiology. Current edition.
- Vanputte, Regan & Russo. Seeley's Anatomy & Physiology. Current edition.
- Patton & Thiobodeau. Anatomy & Physiology. Current edition.

Exam has 250 multiple choice and true/false questions. The student must score 160 correct to be considered passing. Content addressed:

- Hematology
- Cardiovascular System
- Lymphatic System and Immunity
- Digestive System
- Respiratory System
- Urinary System
- Water, Electrolyte, and Acid-Base Balance
- Reproductive System
- Human Growth and Development
- Genetics
