Ohio Teacher Evaluation System (OTES) Results for Ohio Teachers
Prepared by an Ohio Educator Preparation Provider at Ursuline College

Reporting period from September 1, 2021 to August 31, 2022.
(Data Source: Ohio Department of Education)

Description of Data:

Ohio's system for evaluating teachers (Ohio's Teacher Evaluation System) provides educators with a detailed view of their performance, with a focus on specific strengths and opportunities for improvement. The system is research-based and designed to be transparent, fair, and adaptable to the specific contexts of Ohio's school districts. Furthermore, it builds on what educators know about the importance of ongoing assessment and feedback as a powerful vehicle to support improved practice. Teacher performance and student academic growth are the two key components of Ohio's evaluation system.

An apparent dip in evaluations for the most recent "Initial License Effective Year" cohort comes from the perception that any given year's evaluation results are actually a chronological view of evaluations. Rather, it's a view of the evaluations from that school year, showing four different cohorts of licensed educators. The most recently licensed cohort will eventually have more evaluation results in its second year as more educators find employment as teachers or principals.

Limitations of the Ohio Teacher Evaluation System (OTES) Data:

1. The information in the report is for those individuals receiving their licenses with effective years of 2018, 2019, 2020 and 2021.
2. The teacher evaluation data in this report are provided by the Ohio Department of Education.
3. Due to ORC 3333.041(B), annual results must be masked for institutions with fewer than 10 completers with OTES data.

Reporting period from September 1, 2021 to August 31, 2022.

Description of Data:

Ohio's system for evaluating principals (Ohio's Principal Evaluation System) provides building leaders with a detailed view of their performance, with a focus on specific strengths and opportunities for improvement.

The Ohio Principal Evaluation System (OPES) data reported here are limited in that the information in the report is for those individuals receiving their licenses with effective years of 2017, 2018, 2019 and 2020.

An apparent dip in evaluations for the most recent "Initial License Effective Year" cohort comes from the perception that any given year's evaluation results are actually a chronological view of evaluations. Rather, it's a view of the evaluations from that school year, showing four different cohorts of licensed educators. The most recently licensed cohort will eventually have more evaluation results in its second year as more educators find employment as teachers or principals.

**Value-Added Data for Students Taught by Teachers Prepared
 by Ohio Educator Preparation Providers at Ursuline College**

Reporting period from September 1, 2021 to August 31, 2022.

Description of Data:

Ohio's value-added data system provides information on student academic gains. As a vital component of Ohio's accountability system, districts and educators have access to an extensive array of diagnostic data through the Education Value-Added Assessment System (EVAAS). Schools can demonstrate through value-added data that many of their students are achieving significant progress. Student growth measures also provide students and parents with evidence of the impact of their efforts. Educators and schools further use value-added data to inform instructional practices.

Limitations of the Value-Added Data:

1. The information in the report is for those individuals receiving their licenses with effective years of 2017, 2018, 2019 and 2020.
2. The value-added data in this report are those reported by Ohio's Education Value-Added Assessment System (EVAAS) based on Elementary and Middle School Tests (Grades 4-8) and End-of-Course Tests for high school credit.
3. For Educator Preparation Providers with fewer than 10 linked teachers or principals with value-added data, only the number (N) is reported.

Excellence and Innovation Initiatives

Reporting period from September 1, 2021 to August 31, 2022.
(Data Source: Ursuline College)

Description of Data:

This section reflects self-reported information from Ohio Educator Preparation Providers on a maximum of three initiatives geared to increase excellence and support innovation in the preparation of Ohio educators.

Teacher Preparation Programs

Initiative:	Interview Night
Purpose:	Collaboration activity between Educational Administration and Initial Licensures candidates.
Goal:	Preparation for interviews
Number of Participants:	46
Strategy:	Each spring semester the Education Unit holds an Interview Night where our Education Administration candidates seeking the principal's license and are enrolled in Field Internship II are required to interview our initial license candidates enrolled the Master Apprenticeship Program (MAP). The MAP candidates are required to participate in a mock interview session with a pair of Educational Administration candidates. MAP candidates are asked questions related to their educational experience, why they are interested in joining the teaching profession. They also are asked to reflect on their philosophy of education, curriculum and instruction, diversity and inclusion, current issues in education related to special education, English Language Learners, and reading education.
Demonstration of Impact:	The candidates are required to bring a cover letter and resume for the education administration candidates to review and offer suggestions. This annual event takes place during the month of April. This activity offers the MAP candidates good preparation for our annual job fair for teachers.

Initiative:	Online Reading Endorsement Program
Purpose:	Development of new online programs
Goal:	Offer reading classes leading toward the Reading Endorsement
Number of Participants:	0
Strategy:	Beginning the fall semester of 2022, the Master Apprenticeship Program is adding an asynchronous on-line reading endorsement program offered at the graduate level. The purpose of the online reading endorsement program is to allow our initial license teacher who have earned a master's degree in education to learn the strategies and instructional skills that they will need to help students thrive as readers. The online program will offer 5 online courses; each course is five weeks; EDR 573 Reading Practicum is eight weeks. To complete the endorsement in two semesters, fieldwork can be completed in a classroom, summer school, camps, or a literacy program (50 hours total). Transfer credit is accepted. The course hours earned may be used to renew the candidate's teaching license.
Demonstration of Impact:	Not available at this time.

Initiative:	An Exploration into Teacher Perspectives
Purpose:	A face-to-face presentation for all students in the Education Unit programs: advanced programs and 4+1 students
Goal:	To focus on dispositions of how teachers regard students, self, and the act of teaching
