The Ursuline College with SNAP curriculum is a **full-time, 36-month** format that prepares the baccalaureate-educated nurse to become a doctorally-prepared nurse anesthetist. The curriculum is designed to meet the standards of the Council of Accreditation of Nurse Anesthesia Educational Programs (COA).

The graduate receives a **Doctor of Nursing Practice degree** and is eligible to sit for the National Certification Exam (NCE) administered by the NBCRNA. After successful completion of this written exam, the graduate becomes a Certified Registered Nurse Anesthetist.

Why apply to the nurse anesthesia program?

- All classes are distance education with **synchronous and asynchronous** didactic components
- Annual on-campus simulation immersion
- Clinical sites throughout the United States - locations of main clinical hub will be assigned prior to starting the program in January

COA Council on Accreditation ACCREDITED

CCNE ACCREDITED

DNP Nurse Anesthesia

Curriculum
